ABOUT VIVAX

VIVAX brand is a Croatian product which has been on the market since 2004. and today in its assortment it offers more than 250 various products. Divided into 5 product groups: television and audio, small house appliances, white goods, air condition and heat pumps, mobile and tablet.

Mission of VIVAX production is making products with simple design supported by innovative and quality technology that enables full home equipment. We are transforming your space into a home, as well as allowing you to use your free time more comfortable.

DID YOU KNOW?

VIVAX TV devices are made in Croatia

VIVAX is a brand of M SAN Grupa d.o.o. which has been present on the European market for more than 15 years. In 2015, we expanded our production facilities, including production of LED TVs and LED Displays. The production facilities of VIVAX TVs are located in Zagreb, and are the only one of its kind in SE Europe region. The production facility produces 22" - 65" TV sizes with an annual capacity of more than 180,000 units.

Every VIVAX TV device goes through a double check quality control

We provide the 100% quality control testing on each TV set! The entire process of production and quality control is managed and controlled by highly qualified experts, who ensure that our products have the highest possible quality. All TV sets are certified and compliant with all EU standards. LED TV screens are assembled with highest technology standards and in "clean" conditions, including "clean room" and special workwear. Each screen component is subjected to additional quality control during each step of manufacturing process.

VIVAX
Simply good.
